City of Winter Haven's Fats, Oils, and Grease (FOG) Program Preferred Hauler Program Registration

The **City of Winter Haven's Preferred Hauler Program** (PHP) is for vendors that pump, haul, and properly dispose of grease trap/interceptor waste for food service establishments (**Generators**). PHP vendors will demonstrate both initially and continually that they are able to meet the following criteria:

1. Satisfactorily pump out grease traps/interceptors.
 - a. Before full FOG program implementation submit lists of facilities pumped out on a regular basis for baseline trap inspection.
 - b. Demonstrate satisfactory pump outs during program implementation.
2. Attend waste hauler education meeting.
3. Accepts limited regulatory responsibility for the Generator.
 - a. Accurately completes the **City of Winter Haven's** Pump Out (PO) report.
 - b. Submits PO report to the **City of Winter Haven** within 10 calendar days of pump out date.
 - c. Preferred hauler becomes the point of contact for Generator with the **City of Winter Haven** concerning discrepancies with PO report submittals and trap pump outs.
4. Submits manifest document for disposal of all trap contents generated in the **City of Winter Haven's** service area on a quarterly basis.
